# SHADE STRUCTURES

Synthesis AF-350 is available in 8 modern stylish colors to compliment architectural trends and enhance existing structures. Provides ideal shade solutions for playgrounds, swimming pools, residential backyards, courtyards, child-care centers, sporting facilities and car parks.

Commercial 95 is a high quality, heavy duty knitted shade cloth specifically developed as a very strong and stable outdoor fabric for use in tension structures and shade sails where a waterproof structure is required. Commercial 95 offers the ultimate combination of maximum sun protection, strength and durability to ensure maintenance free long life performance, manufactured in 14 colors.

Our tensile fabric design software allows us to custom design a shade structure in any shape or style to present a cosmetic and practical solution for your project.

Our outdoor shade structures are made from premium, high grade, commercial cloth that can provide the following:

- Waterproof shelter
- UV protection
- Capacity to allow for air flow (to let hot air out)
- Range of custom and standard sizes and colors
- Can be custom designed to suit your individual need.

Selecting and specifying the right shade cloth for any architectural application just got a whole lot easier. Designed, engineered and manufactured by the world leader in knitted shade cloth technologies, the Synthesis range of architectural fabrics offers absolute freedom in tension structure design. Whether you need an economical shade cloth for use in almost any type of residential structure through to large-scale people protection for public areas, there's a Synthesis shade fabric engineered specially for almost every application. And when it comes to choosing the ideal color to complement your project, you simply won't find a bigger, better or brighter selection in our shade cloth range.
